

**Guided Proofreading of Automatic Segmentations for Connectomics**

*Supplemental Material*

Anonymous CVPR submission

Paper ID 0947

**1. Classifier**

**1.1. CNN Architecture**

2 vs 4 layers vs resnet

**1.2. Training Parameters**

**1.3. Automatic Method Threshold  $p_t$**

**2. L. Cylinder Results**

**3. CREMI Results**

**4. Forced Choice User Experiment**

**4.1. Recruitment and Participation**

flyers, participant list

**4.2. Example Classifications**

Where did users make a mistake?

**4.3. Subjective Responses**

NASA TLX ANOVA analysis
